

Simple, Cost Effective
Per Seat Pricing

BusinessFlex Hosted iPBX

The Smart, Hassle-Free Integrated Communications Solution for Business...

AQ Communications' BusinessFlex iPBX is a hosted, fully managed voice and data solution which integrates local telephone service, IP business phones and high speed Internet....all for one low price per seat. BusinessFlex iPBX provides small and medium businesses with service and features generally available only to large companies... without the cost, hassle and limitations of owning a traditional phone system.

AQ takes the intelligence of your phone system out of your office and hosts it in our secure, fully redundant, Central Office. With BusinessFlex iPBX, Less upfront cost than a traditional key system. There are no additional maintenance contracts or charges... no surprises. You'll enjoy the latest software upgrades included in your monthly price.

BusinessFlex iPBX uses your existing internet access, ensuring the most reliable and secure service. Your voice and data solution is delivered over a smart connection that dynamically allocates and prioritizes the voice and data services. Cost effective and flexible!

AQ empowers you with a Web interface, CommPortal, so you can instantly make changes to your service... or have our team make the change for you.

BusinessFlex iPBX Includes
