A Reputation for Excellence

AQ is a privately owned Telecommunications Company providing a variety of Technical Services. Operating in the Phoenix Valley for more than 14 years, we have focused on delivering an exceptional finished product with the highest standards of integrity and workmanship. We are intent on developing strong client partnerships and exceeding our customer's expectations. These hallmarks have distinguished AQ and contributed to our steady growth and stability. Our reputation for service and quality has made AQ one of the best telecommunications cabling companies in the region.

Design / Build

AQ is a licensed contractor serving Arizona and the phoenix valley with a complete offering of structured cabling services including design/build, installation, and maintenance of telecommunications infrastructures. From moves, adds and changes, to multi-building campus environments and data centers, we have the experience and research centers to handle your installation. Our work includes commercial campuses, data centers, and secure compartmentalized information facilities, as well as a wide variety of industries such as healthcare, auto dealerships, law firms, hospitality, government contractors, non-profits, educational, and financial firms, federal, state, and local governments.
